

Please continue the State of WI's "Do Not Call" program as it is. We get tired of the telephone calls coming to our home for the purpose of selling us something we don't want!! The calls come all hours of the night. The most intrusive are calls during the dinner hour, and late evenings. Let the banks send their information in the mail. If I'd wanted to keep a credit card, I wouldn't have cancelled it in the 1st place. Why give the creditor 18 months to harass me, trying to keep me as a customer! Personally, I'd like to see a ban on ALL TELEMARETERS, including the charitable organizations. As it is, as soon as I have determined that the call is a telemarketer, including those associated with charities, I hang up. They'll get a much better response from me by sending me information to look over. If I'm interested, I'll respond. I will not be bothered on the telephone!! Especially when the caller will not take "no" for an answer.
